The main objectives of AA are:

1. To assess the strengths and weaknesses of the Departments and to suggest the methods for improvement and for overcoming the weaknesses related with teaching, learning and evaluation.
2. To ascertain whether the Departments are functioning efficiently and effectively with proven records of capacity building, research projects and publications and extension over a period of time.
3. To identify the bottlenecks in the existing academic mechanisms and to identify the opportunities for reforms in academic, administration, and examination system for a long-term progression with excellence and to face the challenges of globalization in Higher Technical Education (HTE).
4. To evaluate the optimum utilization of financial and other resources, issues concerning with leadership and organization, functional autonomy and financial management of Departments/Centres.
5. To suggest the methods of improvement for maintaining quality in HTE.

METHODOLOGY:

Enrolment, Faculty Strength, Infrastructure, Research Projects, Consultancy, Publications, FDPs and other programmes/students activities conducted during the last year as well as last three years.

- The system of evaluation and internal assessment and the results of students, placement and further progression of students in HTE are assessed using these details.

Profile of Teachers

- To assess Faculty Qualification, Experience, Research Publications during the last three years, number of Research Projects, and Resource Generation by the faculty, Conferences Attended and Papers Presented, Foreign Academic Visits, Fellowships Obtained, Countries Visited, Organizations of Conferences, Membership of Academic Societies, etc. has been considered.
- To evaluate the performances of faculty and their capability matrix under the context of their Teaching, Learning, Research and Development, and Extension Activities has been taken into account.

Feedback of Students

- To elicit the views of the students regarding the general facilities available in the Department, their opinion about the teaching and research commitment and capability of the faculty, and for providing better amenities.
- The feedback process on the ERP portal provides students with an efficient platform to share their opinions about the academic experience. This process involves presenting students with 18 structured questions, covering various aspects such as teaching quality, course content, faculty engagement, and infrastructure. Each question is designed to gauge specific elements of the learning environment, enabling the institution to identify strengths and areas for improvement.

Departmental Visit by Academic Audit Committee (AAC)

- Presentation of Departmental Profile (Detail of the programs, accomplishments, achievements of Faculty and the perspective future plans)
- Visit of the Department, and Facilities for the purpose of understanding the Department, Faculty and their activities.
